DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

"A sense amplifier for nonvolatile memory cells comprising: a reference cell; a first load for connection between a supply terminal and an input terminal of an output comparator, said first load being connected to said reference cell via a first terminal; a second load, connectable to a nonvolatile memory cell, said first load and said second load each having a controllable resistance; and a control circuit controlling said first load and said second load and feeding said first load and said second load with a control voltage independent of an operating voltage between the first conduction terminal and a second conduction terminal of said first load; wherein the first load is controlled by the control circuit in response to a voltage of the first conduction terminal of the first load to provide a reading current to the reference cell during a reading of the nonvolatile memory cell, wherein the reading current passes through both the reference cell and the first load at the same time" recited in claims 1-12 is patentable.

"A sense amplifier for a memory cell, comprising: a first transistor having a first conducting terminal coupled to a reference memory cell and a second conducting terminal for connection to a supply voltage; a second transistor, connectable to the memory cell, said first transistor and said second transistor each having a controllable resistance; and a control circuit coupled to a control input of the first transistor, to a control input of the second transistor, and to the first conducting terminal of the first transistor such that the control circuit applies a control voltage to the control input of the

first transistor in response to a voltage of the first conducting terminal, wherein the control circuit controls the first transistor to provide a reading current to the reference memory cell, wherein the reading current passes through both the reference memory cell and the first transistor at the same time" recited in claims 13-36 is patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
